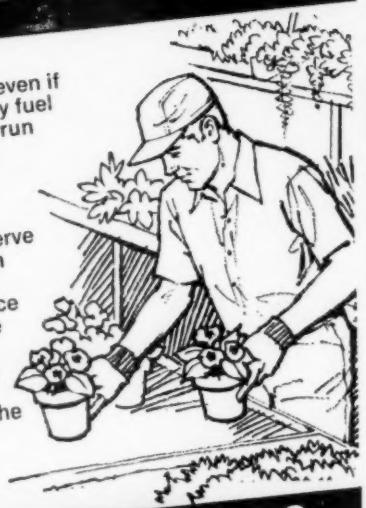
Don't get caught with your plants down



SunDair heaters keep you growing—even if there's an interruption in your primary fuel supply. These energy saving heaters run on No. 2 fuel oil or gas. Conversion from one fuel to another is fast, simple. Takes only minutes.

SunDair heaters range from 200,000 to 400,000 BTU. They conserve fuel by using it more efficiently than other unit heaters.

Installation is simple. Maintenance is minimal. Many SunDair units are still running after 22 years of service. Only routine maintenance required.

Write or, call **800-843-3312** for the name of your nearest SunDair distributor. Keep your plants on the grow.
